

VOLUME XVI.

OREGON, MISSOURI, FRIDAY, MAY 20, 1881.

NUMBER 49

**HOME NEWS**

—Rev. S. Carothers will preach in Oregon next Sabbath morning and night.

—Died, May 17th, the little daughter of Mr. Zachman, living two miles south of New Point. Disease, spinal meningitis.

—A. J. Jamison of Mound City, who is one of the most promising young lawyers in this part of the State, went down to Callaway county last week and will bring back with him a brand new wife. We extend THE COUNTY PAPER's hearty congratulations.

—Government is going to discontinue the coinage of nickels. If that is done we are a goner. How does the government intend to provide for the editors? Such legislation is a direct stab at the liberty of the press—give us nickels or give us death.

—It is all right to pray for deliverance from sudden death, but that kind of a prayer, backed up by a general removal of all disease breeding filth would be more effectual. Nor is it fair to blame Providence for the sudden death of dearly loved little ones, when parents permit all manner of death-hatching stuff to accumulate in alleys, yards and water closets. For the sake of the little ones, always first affected, clean up.

—When you start out to get married, of course you must make up your mind to do everything up in style, and about the starting point is to get up wedding invitations. The mode for those require that they be printed on cards twice as long as they are wide, so that they can be folded once to fit the square envelope used. Script is the prevailing style of lettering, and the invitation is given in the name of an aunt, cousin or grand-mother, in the absence of a nearer relative. The lady's card accompanying the invitation is small and thick, and longer than ordinary visiting card, with her maiden name in full engraved upon it.

—If any young man of a veritable intelligence, whenever he has twenty-five or fifty cents to spare, instead of spending it for cigars or beer, will buy a good book, in a few years he will find himself the owner of a good library. The cost of books thus bought is not felt and it is astonishing how rapidly they will accumulate. A large number of standard works are for sale at this office, at unprecedentedly low prices. We publish elsewhere a partial list of them, but we also have many other good books not named in the list. Books are the most acceptable of all presents and are appropriate for all occasions. At the price we offer these books they ought to sell like hot cakes. Call and get a few.

—The St. Joseph Herald of last Friday says: "A quiet wedding took place last night in the parlors of the Occidental hotel, the parties being Miss Ida M. Light, daughter of the proprietor, J. G. Light, and Douglass Baldwin of Forest City. The ceremony was performed at 9:30 o'clock by Rev. H. Bulhard. Congratulations followed and then came a bountiful repast which was partaken of with a hearty relish. The young couple leave this afternoon for Forest City, their future home, where all their friends wish them well. The bride is a most estimable lady and has many fine traits of womanly character. The groom is in mercantile business with a brother at Forest City, and is a good business man and highly respected by all. The Herald joins with their many friends in wishing them well."

—We inadvertently failed to call attention last week to the big advertisement of Will E. Minton, Forest City. However, we are sure it was seen by everybody, and that everybody was not only willing to "excuse him for smiling," but was tempted to join him. The fact is, Minton has been smiling ever since he started his first big advertisement in THE COUNTY PAPER. He is determined to have the rush of custom which the Red Front enjoyed when Gearhart ran that establishment, and he has started out in the right way to get all of it and a great deal more besides. Any one has only to drop into his store almost any day to be convinced of that fact. He has the kind of goods the people want, and at prices which make them smile; and he every week invites the ten thousand readers of THE COUNTY PAPER to call and see him. They generally accept his invitation, and that's the cause of the general exclamation.

—J. B. Duncan, living near Maitland, had his leg broken Saturday last by his horse falling upon him.

—A little three year old daughter of Mr. Nipher of this city died last Sunday of diphtheria.

—Rev. E. Evans will preach at Benton school house on Sunday morning, May 29th.

—Miss Kate Fenton, who has been visiting her sister, Mrs. M. L. McKnight of this city, for nearly a year, left on Tuesday for her home in Ohio.

—Now that the mails are running regularly again, we hope our correspondents will send us letters every week from the various neighborhoods of the county. Bright, newsy, pleasant letters are the kind we want.

—Miss Julia Luckhart, who has been attending the Normal School at Kirksville, Mo., for several months, returned home last Saturday. Miss Mary Van Buskirk, who accompanied her, will remain till the end of the session.

—We are informed that J. A. Demuth of Forest City has bought several lots in South St. Joseph, upon which it is his intention to build a large iron foundry and engage in business there. Mr. Demuth is a first class citizen and we will be sorry to lose him.

—Report of Star school. Miss Julia May, teacher, for the month ending May 6th, shows an enrollment of 49. Average daily attendance, 30; number present each day, 9, viz. Jennie Mc Reynolds, Mattie Taylor, Vernon Taylor, Samuel Taylor, Olive Lane, Oliver Ward, Walter Brownings, Sanford Browning, Sallie Hickman.

—A new invention is reported from Turin. It consists in the application of light giving materials to printing ink, by which print becomes luminous in the dark, so that in future it will be possible to read without the assistance of a candle or lamp. A new daily paper, it is said, will soon be started in New York, upon which the luminous ink will be used. What a nice thing for railway cars running out of large cities on winter evenings. Everybody reading his paper and lighting the car at the same time. The more papers the more light.

—The western conference of the German M. E. church will be held in the City of Oregon, Mo., commencing on Thursday, September 8th and continuing one week. Bishop Foster will preside and about fifty ministers are expected to be present. It is hoped the good people of the city will open their homes to the visitors and extend them a hearty and generous hospitality. Many visitors will accompany the ministers and it is expected that more than a hundred strangers will be present.

—Every farmer should plant a few choice fruit trees each spring, in order to renew their orchards and keep a constant succession of thrifty bearing trees. Those who have no orchards should not fail to plant this spring; nothing is so gained, and valuable time is lost, by putting this off until another year. George P. Luckhart of this city can supply everything wanted in the line of fruit trees, small fruits, grapes, shrubs, hedges, etc., etc. He also has a large number of pure Poland China pigs—as fine as any one ever saw—which he will sell at a low price. Farmers should make a note of these facts.

—Now is the time to clean up. Begin with your cellar, then the door-yard and be sure not to stop until the gutter in front of your house and the alley back of it are in a good sanitary condition. Decaying vegetables left over winter in the cellars should be removed, for if left they will generate malaria, diphtheria and a doctor's bill, and possibly, undertaker, gravedigger and tombstone expenses. The cistern should not be forgotten. For no one knows how many mice, rats, cats, etc., have fallen therein during the winter months. Now, is the watchword in this matter, and much more may depend upon its strict observance than casual thought would concede.

—Look out for the swindler who is traveling through the country playing the gold watch game. He approaches the farmer, gives him a square, innocent look and then commences to cry. He shows a gold watch, the gift of his father; says he was raised in affluence and not trained to work, but owing to reverses they are now poverty-stricken and if the farmer will let him have \$20 on the last gift of his father—boo-hoo—he can relieve his mother—boo—and will redeem it as soon as gets work. Nine times out of ten the farmer does it, and, as he drops a tear of pity for the young man, hopes inwardly that he will never redeem the watch and he never will. He is too good a financier to pay \$20 for a \$2 brass watch.

—Services at the Christian church next Sunday morning and evening by Elder W. T. Maupin.

—It is officially announced that the revised edition of the Bible will be issued to the public on the 20th of May, both in America and Europe.

—The Oregon Cornet Band will hold a lawn festival and concert in the Court House park next Tuesday evening, May 24th. Refreshments of all kinds will be on the grounds.

—It is said that a good way to keep your nose from bleeding is to keep it out of other people's business. Doubtless there are a great many who never tried this valuable recipe.

—If you have warts on your hand rub each of them with a bullet, and load a gun with the bullets. Then watch until a vagrant cat comes along. Aim carefully at the cat's head and fire. If all the bullets go into her head it may not cure the warts, but it will be a mighty good thing for the neighborhood.

—The Maryville Republican is responsible for the following whooper: "It is related as a fact that a prominent citizen of Holt county, who resides in the bottom was seen during the late freshet wading around in his yard, and vigorously prodding around in the water with a pole. When asked what he was about, he replied he wanted to find the well to get the children some water."

—The "Temperance" Column in this paper last week was decidedly temperate. Of course our readers understand that we are not responsible for what appears in that column; and we certainly do not indorse such intolerance as appeared last week. We are friendly to the Temperance cause, but a few more blasts like that referred to will kill it dead than the nails in Julius Caesar's coffin, so far as the work of the Alliance in Holt county is concerned.

—By notice published at the head of the editorial column on the fourth page, it will be seen that, owing to his long continued and increasing ill health, the editor of this paper wishes to sell a half interest in it to some one who is competent to edit it. He does not propose to sever his connection with the paper, but wants to relieve himself of the labor of editing it,—at least while his health continues as bad as at present. As the paper is in a highly prosperous condition, this is a fine opportunity for some one to secure a lucrative, pleasant, and perfectly safe business.

—This suggestion is from the Scientific American, and strikes us as sensible and useful for getting rid of stumps: "In the autumn or early winter bore a hole one or two inches in diameter, according to the girth of the stump, and about two inches deep, put into it one or two ounces of saltpeter, fill the hole with water and plug it close. In the ensuing spring pour in about a gill of kerosene oil and ignite it. The stump will smoulder away, without blazing, to the very extremity of the roots, leaving nothing but the ashes."

—Why don't more of the farmers of Holt county engage in the raising of flax? The Carrollton (Mo.) Record says between 6,000 and 10,000 acres will be put in flax in Carroll county this season. Hereafter flax has been grown for the seed, but there is a large and increasing demand for cordage or binding cord, and interest in flax culture is increasing all over the country. The price commanded by the flax seed is largely to the value of the crop, and the demand is said to be almost unlimited. As the value of the flax depends largely upon the length of the straw, flax should be sown on strong land, which should be very carefully prepared by harrowing and rolling so as to make the surface smooth, to facilitate cutting the crop very close to the ground, and securing the full length of straw.

—The following appeared as a special in the St. Louis Chronicle of April 25, from Moberly, Mo.: A great grafting swindle has been exposed in this county. An advance agent comes along and makes written contract with farmers for grafts—all living grafts to be paid for in June. Workmen follow immediately and are sent into the orchard. The agent engages the farmer in conversation while the men do the grafting, and the latter insert from ten to twenty times as many grafts as were contracted for, from slips cut from the last orchard visited, and all depart, and the farmer discovers the swindle when too late. It is a wholesale fraud, aggregating \$200 or \$300 a day. The parties were reported here last Saturday and went north.

—"Well, I should twitter," is the latest slang phrase. It is supposed to express gratification.

—John D. Dopf has been appointed Postmaster of Rock Port, vice McCrery, resigned.

—When a man learns to mind his own business, and only that, he is in the path of social safety.

—Married, at the residence of the bride's parents, five miles south of Bigelow, by Rev. Hunt, on Sunday, May 13th, 1881, Mr. Lawrence L. Lease to Miss Catharine Wagoner, all of Holt county.

—On the seventh of June a special election will be held in Nodaway county, to decide whether a tax of Eighty Thousand Dollars shall be levied to build a new court house and jail at Maryville.

—The Rock Port Journal says: "The river at this rise has been about fifteen inches higher than it was in 1843; which up to this rise was the highest since the first settlement of this country by white men. Mr. George Harmon resided here he now does in 1843, and noted the rise then and every big rise since. In 1867 it rose to within one foot of his '43 mark, the highest rise since '43 until the present one."

—One of the heaviest losers from the recent floods is Mr. Jacob Book, who has two saw mills in this county, both of which are in the flooded district. His losses will amount to several thousand dollars; but he does not despond and is energetically going to work to regain what he lost. He informs us that many renters of small farms in the bottom are leaving the county, as they see no way of making a living this year in the overflooded lands. The frequent rains of the past two weeks have also greatly retarded farm work in the bottoms. It is feared that in some localities in the bottom there will be absolute destitution next winter.

—The New York Sun has the following bit of good news for worried mothers and tortured babies: "The pain of teething may be almost done away, and the health of the child be benefited, by giving it fine splinters of ice, picked off with a pin, to melt in its mouth. The fragment is so small that it is but a drop of warm water before it can be swallowed, and the child has all the coolness for its feverish gums without the slightest injury. The avidity with which the little things taste the cooling morsel; the instant quiet which succeeds, hours of fretfulness, and the sleep which follows the relief are the best witnesses to this magic remedy. Ice may be fed to a three months' child this way, each splinter being no larger than a common pin, for five or ten minutes, the result being that it has swallowed in that time a teaspoonful of warm water, which, so far from being a harm, is good for it, and the process may be repeated hourly as often as the fretting fits from teething begin."

—Married, at the residence of the bride's parents, Thursday May 12th, by the Rev. W. A. Vangundy, Mr. N. E. Peirce to Miss Mattie L. Zeller, all of Holt county. There were about fifty invited guests and it was a very enjoyable affair.

—What in thunder is the matter with the railroad or Postoffice Department or some other man? We have not had our COUNTY PAPER the same week it was printed but once in six weeks, and it is now the 14th and we have not yet received our last week's paper yet. Maitland got her package the same date they were published and we got our mail direct from Maitland.

—Obituary. Died, May 12th, at the residence of her father, John Meyer, Mrs. Louise Thomas in the 27th year of her life. How much of sadness clusters around this visitation. In the bloom of life—married only three months ago with sweet, bright and happy hopes centering on the new home life. But it is not all sad, for she died as sweetly as she lived. She was a worthy member of the New Point Presbyterian church, where a large number of friends attended her funeral service on Saturday—all of whom feel her loss and deeply sympathize with the young husband and fond family in their bereavement. "Three blest whose lives are faithful prayers. Whose loves in higher love endure; What souls possess themselves so pure, Or is there blessedness like theirs?"

**CALIFORNIA KIDNEY TEA.** Is a plant native to the Sierra. It cures! It cures! Only 50 cents. Try it at Klug Prouds, Oregon; France & Co., Forest City.

(Delayed Letter.)  
**Triumph.**  
Health good—doctors idle.  
Farmers progress slowly on account of rain.

Spring grain looks well in "these parts."  
John Johnson bought 160 acres of land from Hobitzell Bros. \$20 per acre was the price.

Mr. Joseph Fessel has moved to Mound City.  
Mr. Thornburger, a brother of Mrs. L. M. Kerns, recently hailed from Ohio and is so well pleased with Holt, that he is going to purchase a farm.

Mr. Meister of New Point is selling off his goods and intends to quit tearing canoes.

Mrs. Elizabeth Kennedy is the present guest of her daughter, Mrs. James Deboit.

The Triumph correspondent of the Mound City News complains of the bad roads from here to Maitland. He has just cause for complaint. Maitlanders, if you want our custom, you must open and repair the road south of town.  
Miss Alice Rayhill, who has been visiting her uncle, will soon leave for relatives in Vernon county, Mo.

Triumph, Richland, Fairview and New Point have lively Sunday Schools. Triumph and New Point have prayer meetings every Sunday evening. Some of the boys (?) at the former place too frequently indulge in whispering during services. Young men, your names are known to the community and may be known to the county.

**Census Notes.**  
The following from the recently published official census report, gives the number of inhabitants in the various towns and townships of Holt county: Benton township including Mound City.....2,025  
Mound City town.....678  
Bigelow township including the town of Bigelow.....1,335  
Bigelow town.....190  
Clay township including the village of Whig Valley.....1,339  
Whig Valley village.....26  
Forbes township including the village of Forbes.....1,000  
Forbes village.....139  
Hickory township including the village of New Point.....989  
New Point village.....81  
Lewis township including the following towns.....1,087  
Forest City.....421  
Oregon.....862  
Liberty township including the town of Corning.....1,065  
Corning town.....761  
Cornwall township.....221  
Nodaway township.....752  
Union township including the town of Craig.....2,028  
Craig town.....541

**Broad vs Narrow Wagon Tires.**  
We have often wondered why people persist in the use of narrow wagon tires in any section of country where the roads are of clay and mud. Common sense should teach men the narrower the tire the deeper the wheel will sink down in the mud. The prevailing width of the road wagon tires is one and three-fourths to two inches, when they should be at least double that. If the tire were four inches wide, the wagon would not sink one-quarter as deep in soft roads, and those terrible ruts in hot weather would not exist. Broad tires have the effect of smoothing and improving clay roads. The surface of the roads will stand a certain amount of pressure, but the narrow tire of a loaded wagon cuts through it like a knife; whereas a broad tire four to five inches wide would roll over it without sinking. If the wagons in this county were all broad tire it would save the property holders many thousands a year in the wear of improved roads which are now torn to pieces by narrow tires of heavily loaded wagons.

We find the following on this subject in the Dowagiac (Mich.) Republican: "The wide tire wagon is coming into general use in this vicinity. Those who have purchased this style of wagon could not be induced to go back to the old. The philosophy of this is readily observed. The broad tire does not cut through, either in mud or sand, thus making the draught much lighter; besides this the roads are not cut up, but, to the contrary, the broad tire presses down the lumps and leaves a smooth track, thus bettering the roads, the advantage of which is easily understood. Many farmers and teamsters are having their wheels fixed over with a broad tire, which is done at a small cost, while hardly a new wagon is made here of the old style. It is hoped that the broad tire will be generally adopted, and that none will purchase a wagon without first considering the benefits arising from using this style. The tire which seems to meet with general favor is three and a half inches wide."

**Navin's Veterinary PRACTICE.**  
Or Explanatory Stock Doctor: written in plain and common language, for the use of the farmer, breeder or owner of any kind of stock from the horse to the chicken. Just the work for the farmer. Handsomely bound and illustrated. Call on N. J. Kyger, Oregon, Mo.

**For Sale Cheap.**  
25,000 First Class Hedge Plants, at the Holt County Nurseries.

**Cheap Reading Matter.**

In this age of increasing intelligence, books are as essential as bread to the existence and comfort of most men and women. Formerly only the wealthy could afford well-filled book shelves in their houses, but the recent Literary Revolution, started by the American Book Exchange, has so reduced the price of good books, that every man, woman, and child can afford to buy.

The sole agent in Holt county for the above Company is W. W. DAVENPORT, who has on hand for sale, a supply of their various publications, and also a considerable number of books published by other houses.

The following is a partial list of the books published by the American Book Exchange, most of which can be found for sale at the editorial room of THE COUNTY PAPER. Any book on the list which may happen to not be on hand will be promptly ordered. All the books are elegantly bound in handsome and durable cloth covering. The following are the books and prices: Library of Universal Knowledge large type, 15 vols.....\$18.00

**Library of History.**  
Milton's Gibbon's Rome 5 vols., 2.40  
Macaulay's England, 3 vols., 1.50  
Rollin's Ancient History, 2 vols., 2.20  
Cressy's Fifteen Decisive Battles of the World.....40  
Froissart's Chronicles, imperial octavo, 150 illustrations.....\$1.85  
Green's Larger History of the English People, 2 vols., cloth., 1.15

**Acme Library of Fiction.**  
Cardinal.....35  
Tom Brown at Rugby.....40
